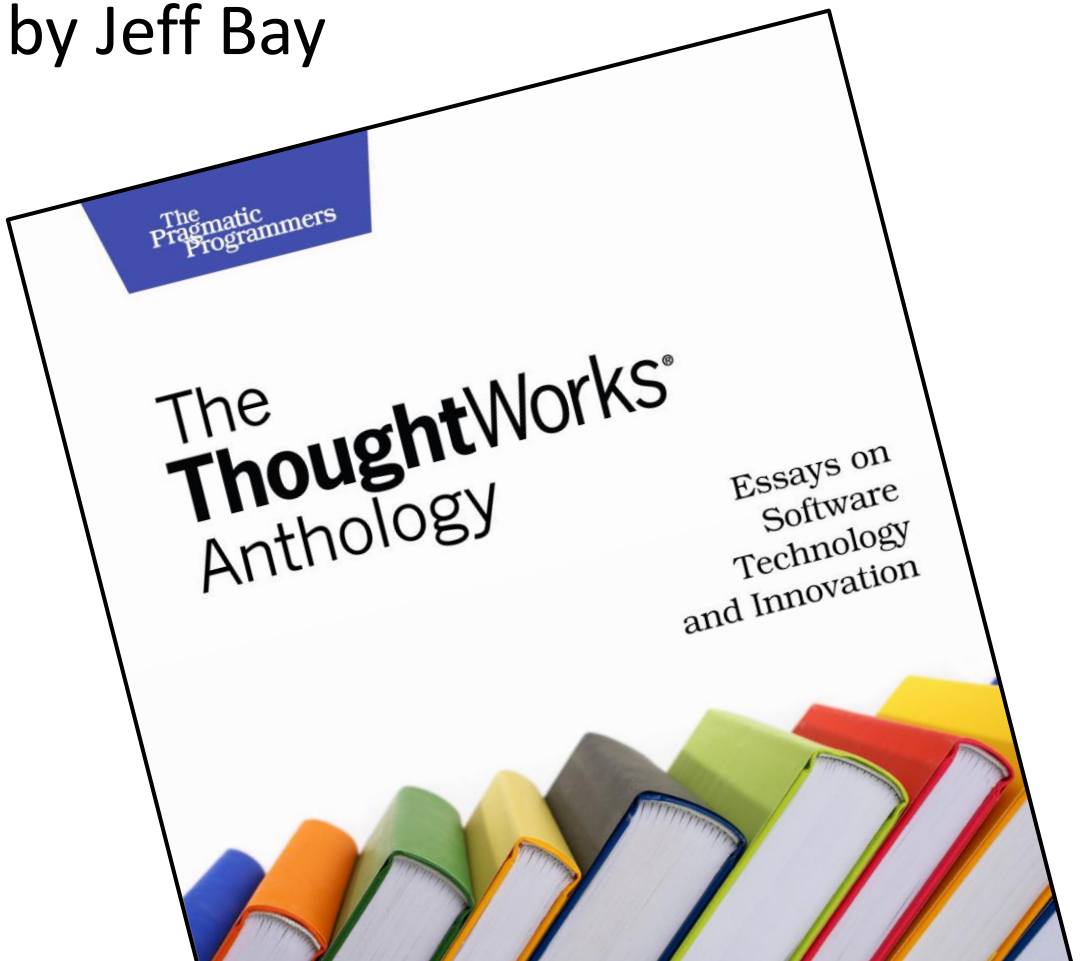
Object Calisthenics

by Jeff Bay



9 rules:

1. One level of indentation per method.
2. Don't use the ELSE keyword.
3. Wrap all primitives and Strings in classes.
4. First class collections.
5. One dot per line.
6. Don't abbreviate.
7. Keep all classes less than 50 lines.
8. No classes with more than two instance variables.
9. No getters or setters.
